

## LIMB PROTECTION

### Sheepskin Palm Protector

- Provides comfort for patients with hand contractures
- Designed to offer moisture absorption, reducing the likelihood of maceration
- One size fits all

### Pressure Care Assist

- Helps reduce the risk of pressure area breakouts in the heels, sacrum, shoulders or head
- Medical grade sheepskin

### Bed Heel Elevator

- Wedge-shaped contoured foam provides excellent support for the lower leg
- Rigid foam aids blood flow and reduces pressure

### Compression Medical Stockings

- Improves blood flow in the lower limbs and assists in the prevention and management of venous disease
- Compression treats fluid build-up from lymphoedema

### Elbow Lift Suspension Pad

- Cushions & elevates the elbow to minimise contact
- Protects the olecranon and olecranon bursa from friction burns and contusions

### Gel Heel/ Elbow Protector

- Prevent trauma of the heel or elbow
- Made from a comfortable, stretchable acrylic/Spandex
- Sold as a pair

## LIMB PROTECTION

### Dermasaver Ankle Garment

Covers and protects both malleoli, the bony prominences on either side of the ankle.

### Dermasaver Elbow Tube

- Protects from pressure, friction and minor traumas
- Allows air flow
- 2 layers of soft, lightweight micro-spring textile

### Hip Protector Pants

- Reduces the risk of hip injury
- Designed for optimum style & comfort, it is lightweight & flexible enough for everyday wear for more active people

### Short Slipper Boot

- Assists in the prevention of pressure ulcers on the feet with an existing condition
- For use primarily in bed, wheelchair or chair

### Sovereign Snug

- Beautifully crafted Sheepskin Snugs will accommodate mild foot oedema whilst offering support and comfort
- Made especially from carefully selected lambskin

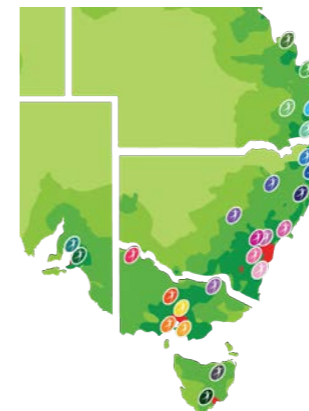

### Gel Armrest Pads

- Gel comfort and protection for the elbows and wrists
- Distributes pressure efficiently to help avoid harmful pressure-related problems
- Easy cleaning

# pressure care

Pressure injuries can develop in anyone with reduced mobility.

They commonly occur when there is prolonged pressure on bony prominences such as the elbow, heel, shoulder, back of head, lower back and the buttock area.

If left untreated, pressure injuries can lead to serious complications. Therefore, prevention is key to managing areas at risk of a pressure injury.

Prevention tips include regular changes to position, good hygiene and skin care, and a healthy diet.

**Do you need help with product selection and sizes? Please contact Aidacare on 1300 133 120.**

For Therapist Solutions please enquire about how else we can help you.

## Rental

Did you know that Aidacare offers a comprehensive range of equipment for rent?

We've got you covered should you need any products for home care and recovery! Call our friendly staff for short term & long term rental options!

## Home Modifications

Whether you need shower, toilet & bathroom modifications, access ramps or grab rails, we are here to help. All mods comply with the highest industry standards.

**Aspire Lifecomfort Active Air Mattresses & Overlays**  
Transverse air cells alternate to provide maximum comfort & therapy. For prevention of pressure areas and skin breakdowns.

**Aidacare Lifecomfort PRESSURE REDUCING Mattress**  
Top of the range foam mattress for maximum comfort and support.

**Aidacare Lifecomfort PRESSURE SAFETY Underlay**  
Designed to provide 'bottoming out' protection for alternating pressure overlays

**Sheepskin Mattress Overlay**  
Medical sheepskin bed overlay, designed to cover head to toe. Suitable for long term patients to reduce shear and friction.

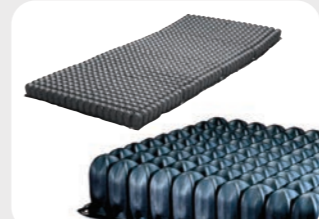

**Sheepskins**  
Can be used directly on a seat or back of a wheelchair, or can be placed over standard foam cushions to increase pressure care and to absorb perspiration.

**Action Gel Pad**  
Used to elevate pressure build up & evenly distribute body weight while seated. Polymer gel does not displace like fluid and is covered in a waterproof film with breathable outer cover.

**ROHO Cushion**  
Wheelchair seat cushion with Interconnected air cells that help disburse pressure and reduce shear risk. Appropriate for clients with high risk of ischemic ulcers.

**ROHO Mattress Sections**  
Allow the patient to lie or sit comfortably for long periods. Provide friction & shear relief. Drainage holes allow fluids to escape away.

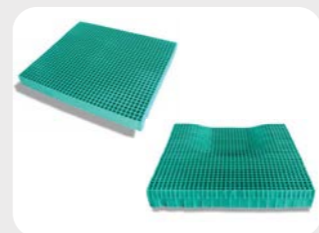

**Diffuser Cushion**  
Premium density pressure-relief cushion made from memory foam with a special innercore of heavy density traditional foam. Ideal for wheelchairs and conventional seating.

**Naturelle Pillow**  
• Therapeutic postural pillow  
• 100% pure latex construction provides comfort and support  
• Gently contoured for user comfort and to encourage better posture

**JAY Cushions**  
Wheelchair cushions designed to stabilise the pelvis, protect the skin and position the body. They are lightweight, low maintenance and can accommodate a range of mobility seating requirements.

**EquaGel Cushions**  
Low-profile comfortable gel cushion that absorbs vibrations. Comes with a fluid resistant, vapour permeable cover and is 12 degrees cooler than inflatable cushions creating a comfortable seating solution for patients.

**Aspire Mobile Air Chair**  
• Gas Assisted Tilt 25°, Recline 50° and Leg Raise 90°. Allows the chair to convert to a lie-flat bed position.  
• Swing Away Wings & Armrests.  
• Adjustable Foam Matrix.

**Aspire Air Lift Chair**  
• Powered rise and recline  
• Medical grade Dartex upholstery - Anti-microbial  
• Multilayer foam and fibre pillows, contoured air bladder with integrated hand pump

**Aspire Shell Chair**  
• A lightweight, ergonomically designed chair  
• Removable seat cushion facilitates pressure care  
• Anterior tilt function assists with user transfers

**Seating Matters Phoenix Chair**  
• Designed for maximum upper body support.  
• Adjustability for varying users and needs  
• Ideal for use in acute wards or changing environments.
